RE: Dixie Caverns Landfill - Operable Unit 2  
Roanoke, Virginia

Dear Mr. Ferdas:

The Virginia Department of Waste Management (VDWM) has reviewed the draft Record of Decision prepared for Operable Unit 2 at the Dixie Caverns Landfill Superfund site. Operable Unit 2 covers those areas of the Dixie Caverns Landfill site that are not covered by Operable Unit 1 (the K061 waste pile) and the proposed Removal Action (sediments in the northern drainage area and soils in the vicinity and beneath the K061 waste pile). We concur with the selected remedy for Operable Unit 2. It is our understanding that under this selected remedy, no further action is necessary for Operable Unit 2.

If you have any questions concerning this letter, please do not hesitate to contact me at (804) 225-2811. Thank you.

Sincerely,

*K. C. Das*
